LIVE

What is it?

TOTA Live Spots is a modern PWA app for monitoring live OTA spots directly on mobile or desktop.

- 👉 Works like a classic app without store installation
- 👉 Gives a quick overview of current activity
- 👉 Supports push notifications

Installation

- **Android:** tap “Install”
- **iPhone:** Safari → Share → “Add to Home Screen”
- **PC:** use the browser install icon

Notifications

- 🟢 **NEW** – new spot
- 🔄 **QSY** – frequency change

Screen

- 🟢 **LIVE** – active stations
- 📊 **Count** – how many are on air

Logic

- 🟢 **NEW** – new activation
- 📡 **LIVE** – active
- 🔄 **QSY** – frequency change

Tip

Enable notifications and focus mainly on **LIVE** and **NEW**. On mobile, the most convenient option is installing the app to your home screen.

Summary

👉 Follow OTA activity in real time • 👉 do not miss new spots • 👉 works like an app directly on your phone
